

Maltes Path

Enjoy the wonderful surroundings of this neighbourhood, Saltkällan. Take a nice one hour walk and experience the fabulous Swedish nature.

Start behind this notice-board and follow the path. Make a right after the brook and walk along the alley.

Then up to the highway rest area on your left. Continue towards the highway, walk under it, to the road bar and pine plantation.

Walk further under the big highway bridge (at night lit up with blue lights underneath).

Pass thru the gravel pit and the woods to the river, Örekilsälven and stroll along it. After the first hut, you're half way!

At Nisses Kulle you can take the stairs up to the viewpoint, overlooking Saltkällefjorden.

After that proceed past the bay to the harbour and walk the gravel road back to this place.

There are lots of benches, BBQ- and picnic areas located along the path and it's easy to get around with wheelchairs and prams.
